

## SMSC

At Crofton Hammond Infant School we recognise the importance of developing every child's spiritual, moral, social and cultural values and the significant part that these play in their ability to learn and achieve. We also believe that these values should underpin our whole school ethos and are important for creating an environment where children thrive. We therefore aim to provide an education that provides pupils with opportunities to explore and develop their own values and beliefs, spiritual awareness, high standards of personal behaviour, a positive caring attitude towards other people, an understanding of their social and cultural traditions and an appreciation of the diversity and richness of the cultures. All areas of the curriculum contribute to a child's spiritual, moral, social and cultural development and opportunities to develop this are planned into each area of the curriculum. Each year there are several whole school events that contribute to children's SMSC development as well as regular assemblies.
