

Week beginning 18<sup>th</sup> September

The focus in Maths has been on number recognition, where we have participated in activities such as ordering numbers, finding missing numbers and finding 1 more and 1 less.

In English we have been writing about how we have grown, linking it to the story we looked at last week.

Over the next few weeks in Computing we will be learning how to log on to the computers, using our individual log in cards.

On Thursday afternoon we each took part in either, Craft, Art or Science activities. In science we were learning about our senses through a variety of activities such as matching sound pots, painting with icy paints and guessing the objects wrapped up. In Craft we decorated butterflies and bees to be displayed in Squirrels classroom. In Art we experimented with colour mixing using powder paints, discovering the different colours we could make.

During Science we used our senses, discussing what we could hear, feel, touch and smell, before tasting a cucumber that we discovered growing in the vegetable planter.
