

Week beginning 27<sup>th</sup> November

This week in Maths the focus has been on 3D shapes. We have been learning the names of shapes, and describing their properties, using language such as faces, vertices, edges, circular and square.

In English we have been learning about instruction writing. We know that instructions are numbered, have pictures and use commanding language. Working in small groups we made a Lego model, before writing instructions of how to make the model.

On Friday morning we were excited to find the Elves had returned to school. Hedgehogs' class have named their Elf Funky Wunky Alfie, while Squirrels have named their Elf Cheeky.

Lots of fun was had during the Christmas decoration morning. The classrooms look wonderful decorated with a touch of glitter and sparkle!!
