

Week beginning 8th January

In Maths we have been exploring the different ways of making five, using coloured counters, before recording as number sentences. As we progressed through the week we were able to identify patterns in our findings increasing the number we were working with.

The focus in English has been on postcards, where we have been identifying different features of a postcard. We will be continuing our learning, and moving on to write postcards next week.

In Geography we have been looking at the four countries that make up the United Kingdom. We have been learning the names of the capital cities and key places of interest in those cities.

The focus in P.E has been on developing skills in passing, controlling, and catching a ball, before moving on to play team games of bench ball.
