We had a very exciting start to the week because on Monday we could come to school dressed up as a character from Sleeping Beauty. $M$ and $M$ Theatrical Productions performed Sleeping Beauty, it was very funny. We all really enjoyed it especially when Mrs Douglass and Miss Wood had to go on stage and dance.

In English we retold the story of the production and then created a story map.

The following day we wrote a recount and used the story map to help us remember what had happened. We tried to include a superlative or comparative suffix in our writing.

In Maths we have used what we have learnt about using blank number lines to help us solve worded addition and subtraction problems.
E.g

Choose 2 rides. How much would it cost to go on them both?
If you had $£ 1$ to spend, how much money would you have left?
(Remember $£ 1=100$ p) If Amy went on the Pirate Ship, the Roller Coaster and the Balloon Ride, how much would she spend altogether?

We also had a maths investigation to find out whether the tallest person had the biggest feet. We had to make sure that we measured accurately.
