

In Maths this week we have been working with money. We had to find different ways to make the amount of money in the purse. We had to remember which coins we could use.

E.g  $12p = 10p + 2p$

$12p = 5p + 5p + 2p$

$12p = 5p + 5p + 1p + 1p$

We have also been doing data handling. We had to look at block graphs and find out information from them. We then made our own block graph about our favourite pizza toppings. By looking at the graph we were able to find out our favourite topping and our least favourite topping.

On Thursday we were able to have a class treat because both the Owls and Badgers class had earned 20 class rewards. We were all able to suggest an idea for the reward but it had to be something that we could do in school. Our most popular idea was a pyjama party. In English we had to write a letter to our parents explaining when the pyjama party would be and what we needed to wear. We had to make sure that we included all the information our parents needed. The pyjama party was a great success. We thought it was fun to wear our pyjamas and we enjoyed playing the party games in the hall.

This half term in P.E Mrs Reeve has been teaching us gymnastics. We have learnt how to do log rolls and egg rolls. We have also practised jumping and landing. This week we put all that we had learned into a sequence. Our sequence had to include a jump, a roll and a way of travelling. We also got to use the apparatus, wall bars and ropes.

On Friday Year 2 and Year 1 went outside to take part in the RSPB Big Bird Watch. We used a worksheet from the RSPB to help us identify the birds and record how many we had seen.

**What did you see?**

Please tick the boxes that show the number of each bird you see together in the same flock. Please do not write the name of the bird in the box.

My name: LOVE DAY

Write your name and date in the box.

LOVE DAY

We saw lots of gulls and crows on the school field but were surprised to also see eleven Magpies and two oystercatchers! We couldn't remember ever seeing so many magpies together before.
