

Monday 23<sup>rd</sup> April

On Monday during Outdoor Learning we took part in a variety of activities, working in small groups. Those of us working in the forest drew observational drawings of trees, mixed potions using water and natural materials, took part in building sculptures made from natural resources and used sticks to make web catchers. We are looking forward to checking our web catchers next week. A small group of us worked in the year 1 area, gardening.

In Maths we have been learning about positional language such as in front, behind, next to, on top etc. Before moving on to directional language, right, left, half turn, quarter turn, three quarter turn and whole turn.

In History we have continued to learn more facts about The Great Fire of London, learning the reasons why the fire spread so quickly, and how they put the fire out.
