

Week beginning 21st May

On Monday during Outdoor Learning some of us worked in the forest making zip wires, identifying mini beasts, whittling and den building. While the other groups took part in team building games, using the parachute and gardening. We would like to thank those parents who have come in to help on a Monday, enabling us to carry out the above activities. A new list will be available after half term for you to sign up if you wish to help out.

In Maths we used a bar model to help us divide numbers in to halves and quarters, before moving on to solve fraction number problems.

During Computing we learnt about word processing, changing the font and size of the print.

You may have noticed some changes to our year 1 outside area. We would like to thank the Navy for painting the blackboard, digging over the ground and creating a wigwam out of garden canes for us to start weaving.

We hope you enjoyed our assembly, as much as we enjoyed performing it.

Have a wonderful half term break, let's hope the sun shines!
