

This week in Year 2 we have been using the Football World Cup as the focus for our learning. As part of our Geography we had to find where Russia was on the world map. We also had to find out which flag belonged to which country from the World Cup and then we had to locate them on the map.

We looked at pictures of teams from the world cup and the types of clothes that they were wearing. We had to arrange the pictures in a timeline from oldest to latest.

The world cup theme continued in music where we listened to world cup songs and thought about what they had in common. We realised that they had a catchy chorus and the words were all about football and the teams. We then had to compose our own world cup chorus.

In Art we have been making a large group picture of a football match to show perspective. We had to paint the grass trying to ensure that it wasn't flat and looked as though it had texture. We drew the football players ensuring that they were different sizes so that some would look as if they were closer than others. We also made the crowd using collage. We cut heads from magazines and papers and arranged them in sizes to again allow for perspective.

On Friday we all had fun taking part in Sports Day. We enjoyed all the different events and all tried our very best. We hope that you enjoyed cheering us all on.
