

Week beginning 24th September

Maths

This week we have been learning about partitioning numbers into tens and ones and then recombining the partitioned number. We used dienes to show how many tens and ones are in a two digit number and then wrote it as a number sentence.

English

We were very lucky to have a visitor this week. Mr Jeffs, who is Mrs Hughes father, came to talk to us about what Lee-on-the-Solent was like when he was a boy. We asked him lots of questions about his school life, the area, shops, what he ate and how he dressed. We all learnt lots of interesting facts about the pier and the train station that was in Lee! At the end of the week we all wrote a recount of his talk.

Science

In small groups we explored what exercises had the effect of making us the most tired. We had to check our breathing and look at our faces for signs of rosy cheeks.

Handwriting

This week we have practised the letters 'k' and 'm'.

PE

On Wednesday we went into the hall to practise egg rolls on the mat. We had to demonstrate how to egg roll and then travel from mat to mat jumping in a variety of different ways.

Reading Activities

We listened to the story 'Five Minutes Peace' and completed the comprehension sheet. We also completed a connections grid based on a picture.

Rocket Reward

Congratulations to all the children who successfully reached the moon. The reward was an art activity where we watched a clip that taught us how to draw boys and girls.
