

Week beginning 10th December

What a busy fun packed and exciting week we've had!

Geography

We have been learning all about the 7 continents, we had to look at a map of the world and plot where the continents were. Next we helped Santa move around the world and visit each continent that we had learnt about.

PE

We are continuing to practice our ball skills, we had to bounce the ball, catch it and balance it on a tennis racket whilst participating in a relay race.

RE

As it's nearly Christmas we have been focusing on the Christmas story. We began by talking about angels, then we had to describe our angel and what they do for us. We learnt about the Christmas story, role played when the angel visited Mary and the Shepherds and then wrote what each character might have said.

Both classes have continued to practice their mathletics, spellings, make cards and perform in the Nativity. We hope you enjoy watching it.

Rocket Reward

Congratulations to everyone who reached the moon, we will have our treat on Monday due to performing our play this afternoon.
