

Week beginning 7<sup>th</sup> January

Happy New Year and welcome back!

### Maths

We began the week completing a maths challenge and revisiting all the maths skills we have learnt so far in year 2. We then progressed to working on Partitioning.

### English

Everyone had to write their Christmas news but first they needed to plan their news by writing a storyboard.

Towards the end of the week we started to learn about Contractions, we learnt that a contraction is a shorter way of saying what you need to say. E.g. Doesn't instead of does not.

### Science

We discussed whether animals can live anywhere, we then sorted pictures of animals into different habitats according to what they needed to survive. We also talked about how environmental changes impact the animals that live there.

### Music

The Badgers went into the hall and used the instruments. They learnt about dynamics and took turns to conduct the class to make either loud or soft music.

## Computing

The Owls class learnt about what an algorithm is. They had to then write their own and test it on a friend.

## PE

On Wednesday we learnt how to play Benchball and on Thursday we went outside to learn about Tag Rugby.

Please could you ensure your child has warm clothing for outdoor PE. It's getting chilly!

## Rocket Reward

Congratulations to everyone for reaching the moon, the reward was investigation time.
