

Week beginning 25th February

Maths

This week we have been focusing on division. We began the week having fun grouping 30 children into different amounts. We learnt that

$$30 \div 3 = 10$$

30 is the number of children 3 is the amount that needs to be in each group

10 is the amount of groups there are

We have also been practising our number bonds to 10. Maybe you could practise this at home too!

English

What an exciting week we've had! Mr Unwin reported finding an egg in the school woods, we all went off to investigate. We had to predict what we thought it was and where it had come from, we had the opportunity to interview Mr Unwin about what he'd witnessed and devise a class timeline of events. Then we each wrote our very own newspaper article.

Art

We are learning about the artist Paul Klee. He was born in Switzerland in 1879. He was known as an abstract painter who was amazed by beautiful colours. We decided to recreate our own pictures in the style of Paul Klee.

PE

This week we had the opportunity to climb the ropes and learn how to do forward rolls safely off of the apparatus.

Reading Activities

We listened to the story "There is no dragon in this story" and then completed an activity where we had to write words to describe how the dragon was feeling by looking at his facial expressions. We also had the opportunity to retell the story in a comic strip.

Author Visit

On Friday the author Anne Wan came to visit the school and work with each year group. She told us how she became an author, how she had to constantly persevere and not give up in order to reach her goal of becoming an author.
