

Week beginning 23<sup>rd</sup> April

Welcome back, we hope you all enjoyed your Easter holiday.

## Maths

This week the focus has been on recapping what we have previously learnt.

## English

Mrs Halton has set the year 2 children a challenge to help her decide where she should go on her holiday this summer. The Owls class are exploring Australia whilst Badgers are exploring Florida. Each class has been learning facts about their country and then compiling the information into a persuasive report. I wonder which destination Mrs Halton will choose!

## Science

We have been learning about life cycles, especially focusing on a frog, chicken and a butterfly.

## PE

This term we are practising our ball skills, on Wednesday we were throwing a tennis ball into the air and catching it with cones. On Thursday we were outside using equipment to invent our own games.

## Reading Activities

We listened to a non-fiction book and then answered questions before completing activities centred on the book. Then we had to choose a non-fiction book from the library that we were interested in and complete an activity about it.

## Reward

Our reward for making the right choices this week was to visit the forest and enjoy time down there. We all had a lot of fun!
