

Week beginning 11<sup>th</sup> November

## Maths

The focus this week has been on 3D shapes and their properties. We explored how many edges, vertices and faces each solid shape has.

## English

We are continuing to focus on the story of 'Jack and the Beanstalk', we began the week retelling the story using our story maps from last week. The emphasis was on remembering to use the changes we had made to our own individual story. The final step was to rewrite the story and remember to use verbs.

## ICT

We learnt how to use the word document, we had to type our name, then change the font, size and colour before saving in the appropriate place.

## PSHE

The focus was on identifying things we are good at and what our friends are good at. We realised that we are all unique and have different skills to offer.

## PE

On Wednesday we continued to learn about Tag Rugby.

## Reading Roundabout

On Friday we learnt about synonyms, a synonym is where two words mean the same thing. Our activities continued to focus on 'Jack and the Beanstalk'.

## Reward Time

Our reward was an afternoon of investigation time and the Owls had the opportunity to continue with their Ukulele lesson.

## Spellings

Please remember to bring your spelling folder back into school on Tuesday morning.

## Reading

In school all the children read, in a group, with either the Class Teacher or Teaching Assistant 3 times a week, some children are also heard to read daily when a parent helper volunteers in school to assist with the reading.

Unfortunately, we don't have the time to write this in all the children's reading records on a daily basis but please rest assured that your child is reading in school with an adult. Thank you.
