

Week beginning 20th January 2020

English

- This week the children have been learning about writing instructions.
- They have been looking at lots of different instructions to see what they all have in common (the features).
- They all planted a mystery seed and then recorded what they did.
- They then wrote their own set of instructions for how to plant a seed.

Maths

- This week we have been revising our number bonds to 10.
- They have been practising their number bonds using a variety of games, such as 'hit the button'.

$0 + 10 = 10$	$6 + 4 = 10$
$1 + 9 = 10$	$7 + 3 = 10$
$2 + 8 = 10$	$8 + 2 = 10$
$3 + 7 = 10$	$9 + 1 = 10$
$4 + 6 = 10$	$10 + 0 = 10$
$5 + 5 = 10$	

- We started to look at number bonds to 20.

Phonics

- This week's spelling words are friend, house, love, school and today.
- We have been re-capping all the digraphs we have learnt so far.

Art

- This week in art we explored different ways of printing.

- The children started by taking photos of natural prints in our outside area - tree bark, plants, flowers, grass.
- The children then had a go at making their own prints inspired by their nature photography.
