

Week beginning 10th February

Maths

This week we have been learning about money, we had to identify the coins and then use the correct coins to make a given amount. We then moved on to making an amount in different ways.

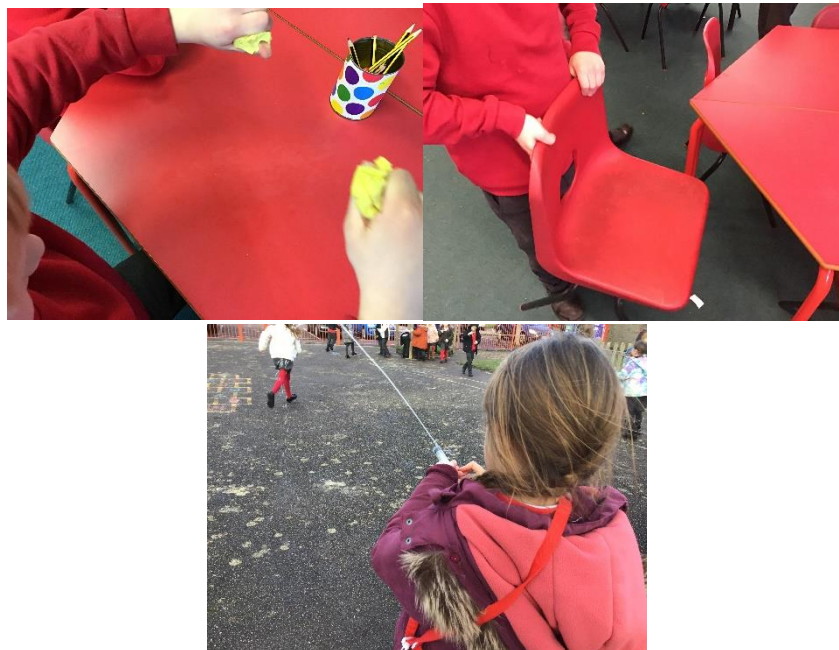

English

The focus this week has been on suffixes. After last week's Crofton Record attempts we used the information to write a report using comparative adjectives (fastest, slowest, sillier, duller).

We have also been learning about pirates in history; Anne Bonny and Blackbeard. We watched a PowerPoint about both of the pirates and made a mind map. We then used this information to write a report about one of the pirates, remembering to include suffixes.

Science

We have been learning about forces, in particular, focusing on a push and a pull. We explored the classroom looking for objects that we either push or pull and then had a fabulous time going outside using a syringe full of water to investigate how far the water travelled.

RE

We have been learning about the word 'authority' and discussing who has authority over us. We watched two stories about Jesus and then described in simple terms the value of the concept of 'authority' to Christians.

PE

On Wednesday, we had a lovely time using the climbing wall and ropes to show different ways of travelling and making shapes whilst displaying good body tension.

Art

Following on from last week's pictures of HMS Victory, the focus this time was to make the sea using collage.

Half Term

Have a fabulous half term, please remember to complete your recycling diary homework, spellings and use this opportunity to complete some of the Reading Challenge Bingo.

Enjoy and stay safe

From the Year 2 Team
