

Dear Squirrels' parents

It has been brought to my attention, that there is currently a mud bath around the back of the year 1 area that parents walking from the main gate round to the Squirrels' classroom have to navigate each day. I do apologise for this. Can I suggest that from today, including this evening (if you receive this in time) you can wait at the front door to the school to collect your child, socially distanced as usual. For the rest of the week, you can drop and collect your child from here. This will mean that you won't see Miss Walters, but we will happily pass a message on for you. We will review the situation in January and continue with this arrangement if the ground is still muddy.

I hope that this short term solution will save you getting covered in mud at the start and end of the day. Obviously if you use the back gate you can continue to drop at the Squirrels' gate as normal.

Best wishes

Jacky
