

## Year 2 Blog – week beginning 7<sup>th</sup> December 2020

Here are this week's highlights!

### Phonics

In phonics this week the children took the phonics screening test and made us all very proud with their attitude and effort towards this job! You will be informed of how your children got on, hopefully by the end of term, when we have been advised of the pass mark.

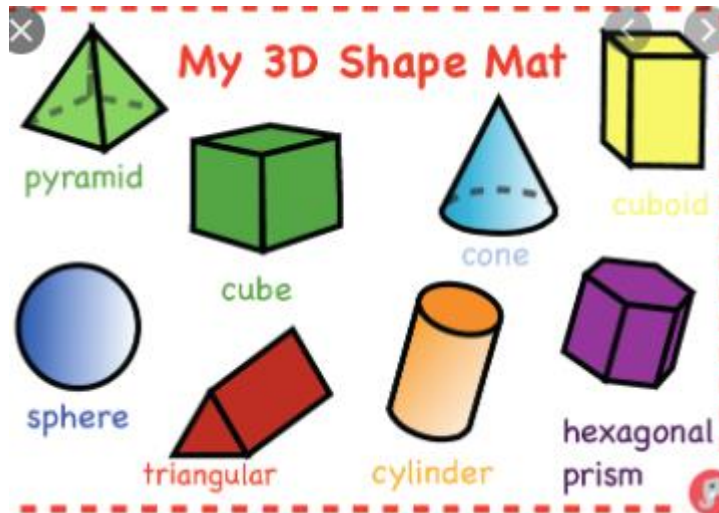

### English

This week we have been writing letters to our designating pen pal at Glamis Court residential home. The children refreshed their memories about the structure of a letter and planned what they wanted to say, making sure to include a question to prompt a reply. The letters will be delivered this week, along with the generous gifts that the children have brought in, when the choir go to sing outside the windows on Wednesday!

### Maths

This week in Maths we have been looking at 3D shapes. We have identified common 3D shapes and have been describing their properties e.g. how many faces, vertices and edges? The children went on a 3D shape hunt around the classroom and recorded their frequencies in a tally chart.

## Nativity

The children have performed their parts of the nativity for the camera this week! They donned their costumes and sang in their best voices! We look forward to watching the whole show this week and we will be sending details of how you can access this at home.

## History

We were so pleased with the turnout to our diorama outcome on Friday, it was lovely for the children to be able to share some of their work with you all. The children worked with a partner to produce a scene from WW1 and these have now been displayed outside Mrs. Halton's office!

## Art

This week the children finished printing their wrapping paper, using the tiles they have designed and made. The children will have the choice to either bring this home or wrap the Gift Fair presents with it.
