

Dear Parents

You should all be so very proud of your children! Every single one of them was brilliant - although we weren't the least bit surprised. I hope they will tell you all about it tonight. Many of them had a little doze on the coach on the way home....

We missed those few children and staff who weren't able to be with us.

Just to let you know that, as well as everything else, your child's teachers have been busy writing their end of year reports. These will be given out tomorrow - please look out for them.

We are so pleased to have got to this day! I heard so many of them say 'this has been the best day of my life'! Whether or not this is actually true we are so grateful that we managed to make a special memory for them - because they certainly are very special children!

With love from us all

xx
