

Gardeners Wanted!

Dear Parents and Carers,

In Early Years we have been working on creating our garden. This year we have had an excellent crop of tomatoes! However, as a team we can struggle to find the time to keep on top of our garden and sadly we are definitely not gardening experts! Our children love being involved with the garden and we would love to do more with them.

With Covid restrictions starting to ease we are now in a position to invite helpers into our school garden again. We are on the lookout for anybody who loves gardening and would enjoy giving a little bit of time each week to come and do some gardening with our children. This offer is open to any green fingered grandparents too!

If you or somebody in your family would like to be involved please see your child's class teacher after school or send an email to the school office FAO Mrs Halbauer.

Kind regards,

The Early Years Team
